

Environmental Policy

Azumah Resources Limited will conduct its operations in a responsible manner that is aligned with the evolving priorities of our stakeholders. Our actions will reflect the broad spectrum of values that we share with our stakeholders and will promote our ongoing efforts to protect our employees, stakeholders, customers and the natural environment.

Azumah's commitment to best-practice environmental stewardship will be achieved by the following actions:

- Integrate environmental management into management practices throughout the company
 - Incorporate environmental controls for the prevention of pollution and use best management practices in all project stages from project design through to operations and closure.
 - Regularly assess environmental conditions through all project stages, from project design through mine closure, thereby identifying all issues of environmental concern and establishing objectives and strategies for their management.
 - Establish credible monitoring and verification programs to measure environmental effects and ensure compliance with legal requirements and with our environmental policy, and communicate the results in an effective manner.
 - Implement management systems to ensure that there is a continuous improvement in environmental performance through the use of the Plan-Do-Check-Act model.
 - Provide for the effective involvement of communities in decisions that affect them by: treating them as equals; respecting their cultures, customs and values; and considering their needs, concerns and aspirations in making our decisions.
 - Provide training and resources to develop employees and build competencies related to their environmental and social responsibilities so ensuring that all employees are equipped to accept responsibility for the environment in which we operate.
-
